HOME GARDENING

UNCLE SAM IS INTERESTED AND ONE OF HIS MEN TALKS.

GARDEN VACANT LOTS

Raising Garden Truck and Making the City More Beautiful is Suggested by Official.

It will interest hundreds of Maryville people, who are taking up the subject of home gardening and kindred topics, to learn that Uncle Sam is interested in this kind of work and deems it of great value. One of his big officials has pronounced views on the subject and has worked them out in detail:

Home gardening directed by the school is offered by Dr. P. P. Claxton, United States commissioner of education, as a solution for some of the educational and economic problems in city and suburban life. Dr. Claxton would have every vacant town lot transformed into a garden, where boys and girls would raise vegetables, berries and fruit for pleasure and for profit. He would have one teacher in the community employed twelve months in the year to teach elementary science in school and direct the home-garden work after school, on Saturdays and during the summer vacation.

"Of the 13,000,000 children between the ages of 6 and 20 years in the cities, towns, manufacturing villages and suburban communities of the United States," says Dr. Claxton, "not more than 15 per cent are away from home during the summer vacation or engaged in regular employment. The remaining 85 per cent remain at home without any useful, healthful, productive occupation requiring any large part of their time. On the other hand, there is much valuable land in back yards and vacant lots that is serving no useful purpose. The problem is to bring this land and these children together.

"In every school and community there should be at least one teacher who knows gardening, both theoretically and practically. This teacher should teach the elementary sciences in the schools during the school hours, and should, out of school hours direct the home gardening of the children between the ages of 7 or 8 and 14 or 15. If possible the teacher should have the assistance of an expert gardener, so that the work may be done in the most practical and profitable way.

The teacher and the gardener should help the children find the plot of ground in back yards, front yards and vacant lots near their homes best suited for gardening work, aid them by some co-operative method to have the lots plowed and prepared for cultivation, help them select seeds, show them how to plant, cultivate and harvest, so as to obtain the best results.

"Vegetables, berries and fruits grown should be used first as food for the children and their families, then the surplus should be marketed to the best advantage. Through the help of the teacher this can be done in a co-operative way. Ten or fifteen cents worth of vegetables each day from the gardens of each of 200 children would amount to $20 or $30. In the summer and fall, when the surplus is large and cannot be marketed to advantage, the teacher should direct and help the children in canning and preserving for winter use or for sale. The canning and tomato clubs of the southern states have already shown what can be done in this way.

"It is difficult to estimate the results of this plan when it shall be in full operation throughout the country. For the children it will mean health, strength, joy in work, habits of industry, an understanding of the value of money as measured in terms of labor, and such knowledge of the phenomena and forces of nature as must be had for an understanding of most of their school lessons. They will also learn something at least of the fundamental principles of morality; that each individual must make his or her own living; must, by some kind of labor of head, hand or heart contribute to the common wealth as much as he takes from it; must pay for what he gets in some kind of coin.

"This plan in full operation would probably do more toward keeping young children out of the factories and mills than all of the child labor laws on the statute books. A boy 10 or 12 years of age, with a quarter of an acre of land, working under careful direction, can produce more for the support of the family than can be purchased with the child's wages from the mill. Children should not be ground in the mills nor sweated in the factories; their strength should not be sapped nor their nerves racked by working in the heat and dust of indoors, yet all children should learn to work; it is good for them, and they joy in it. To work with its feet in the soil, its head in the sunshine and its lungs filled with good fresh air, is not a bad thing for any healthy child.

"This plan would also do much to solve the problem of the idle negro. A large part of the negroes of the southern states live on the outskirts of cities and small towns. Their cabin homes are frequently on large lots and surrounded with vacant lots covered with weeds and rubbish. During the vacation months the negro children roam idly on the streets, falling into mischief and vice. Under proper direction they might make on these back yards and vacant lots enough to support themselves and more, at the same time, they would be kept from vice, and would gain habits of industry. Incidentally, negro quarters would be changed from places of ugliness to places of beauty.

"Probably one of the most valuable results of this plan would be to make it easy for most children to attend school three or four years longer than they now do, a thing more and more desirable, since education for life and citizenship in our industrial, civic and social democracy cannot be obtained before the age of adolescence. If a child can contribute to its support while in school, it may remain in school much longer than if it must be carried as a dead weight until it quits school to go to work.

"Compared with the results, the cost will be inconsiderable. No addition to the number of teachers will be required. It will only be necessary to require different preparation for one teacher in each school."

In the estimate submitted to congress by Dr. Claxton for the support of the bureau of education in the next fiscal year, an item of $5,700 is included to enable the bureau to begin the introduction of this kind of work in the schools of the United States. The commissioner believes that it will only be necessary to work out details of plans and to present them to school officers, together with full information in regard to results of somewhat similar work already done at various places.

Names of Signers of Original Petitions for the People's Ticket.

In order that the people of the city may know who are primarily responsible for the People's ticket which is now in the field, the original petition, with the names of the first few signers, is here given. There are now over 400 other citizens who have since joined with the original signers.

The petition is reproduced as follows:

We the undersigned citizens of the city of Maryville, believing it to be for the best interest of the city and community to have a progressive and business administration of the city's affairs by men of known and tried business ability and clean character, do respectfully petition that the persons hereinafter named do become candidates for the offices for which they are respectively designated herein, at the city election to be held in Maryville, Missouri, on April 7th, 1914, under the designation of the People's ticket.

ELECTS DEMOTTE

AS FIRST LIEUTENANT OF COMPANY F.

THE CAPTAIN RESIGNED

And Election Will Be Held Soon to Fill Vacancy—To Take in the State Encampment.

At the called election of Company F, Fourth regiment, N. G. M., Wednesday evening at the armory, Loren DeMotte was unanimously elected first lieutenant of the company. Lieutenant DeMotte will take charge of the company and the government property at once. Captain Ezra Phipps has resigned, and his resignation will be acted on soon. It is expected that an election for the captaincy will be held in three weeks.

The company will start preparations for the state encampment at Nevada, Mo., which will be held in August. The boys expect to take in the joint maneuver encampment of the National Guards of the Missouri valley states at Fort Riley, Kan.

Company F will take about fifty men with them to these encampments. They have over sixty members at the present time and some recruits.

The company will take a practice hike Saturday night and will return Sunday morning.

ABOUT OUR GUS.

St. Joseph Paper Says Nice Things About Mr. Romasser.

The St. Joseph Gazette has the following to say of Gus Romasser, the non-partisan candidate for mayor:

Now that he has announced for the job, we don't see how our good and also great friend, August Romasser of merry Maryville, can escape getting elected to the mayoralty of his home town at the coming little seance which the voters of the city will hold. For Gus—which is what they used to call him before he got married—looks like Judge Ben P. Lindsey and runs like a schoolboy going to see the circus unload, besides having an official reputation behind him which would make the fortune of a politician possessed of another kind. Yes, Gus has been in office before. He has been mayor before. Time was when he did $5,000 worth of work a year just to be able to make himself believe that the city salary of $300 annually and find yourself wasn't too much to draw. And even then Gus wasn't entirely satisfied that he was living up to his opportunities, which is a mighty awkward sort of feeling for a conscientious but good looking German to develop. So he sat up all night to make the Ringlings pay $500 for driving the trained hippopotamus over the West Third street paving, and put the money down so deep in the city coffers that the showmen never could find it again; and he coaxed the Dogtown residents, in that easy, graceful manner of his'n, to pave the state road when they had declared by the sacred mud of the last 102 freshet that they'd be eternally guttersniped if they paid any attention to the ordinances of that cussed city council; and he dwelt so eloquently on the need of affording employment to the girls of Maryville—being at that time a bachelor himself and therefore interested in keeping all the feminine residents from going elsewhere to win fame and fortune—that the town got a shirt factory where garments are turned out while you wait by the nimble fingered seamstresses that Gus got for the jobs; and he persuaded the merchants not to kick on the occupation tax, and acted as judge at a baby show, and advised the board of education to increase the school facilities, and made himself generally useful. Yes, Gus has got a record that is a record, and if he needs to use any money in the election, as we have already hinted, it will be just to hire extra counting machines to keep tab on his vote.

To the voters of Maryville:

I wish to place before the public the facts why Frank Partridge was not a candidate at the mass meeting Tuesday evening. I was selected to place him in nomination, but being hard of hearing I did not understand the chairman nor know until the nomination was closed. I wish to make this announcement to clear him of all stain.

Yours truly,
B. F. LOWREY.

Will Filed in Probate.

The will of the late Frank A. Chaney, a Hopkins merchant, who died March 25, was filed with Probate Judge Conn Wednesday. His widow, Ollie V. Chaney, was appointed administratrix of the estate.

A BLANKET BALLOT

WILL BE USED FOR FIRST TIME IN SEVENTEEN YEARS.

FOR COUNTY ELECTION

Instructions On How to Vote According to the New Plan Adopted.

The voters will use the blanket ballot at the county election this fall for the first time in seventeen years. In 1897 the legislature abolished it, and by an act passed in 1913 it was restored.

For seventeen years the voters have been using the single party ballot. Under the present law the ballot handed the voter contains the name of every candidate whose nomination for any office specified in the ballot has been certified to or filed according to the provisions of the law.

The names of the candidates of each party are grouped together under the proper heading, designating the organization by which the candidates comprising the groups are placed in nomination.

The statute provides:

"And each group shall so alternate on the ballot used in the several election districts or precincts that each group will appear thereon an equal number of times in the first column and the last column and in each intermediate column. The name of no candidate shall appear in more than one group.

The voter, according to instructions issued by the election commissioners, should mark out the names included in every ticket or group on the ballot, except the ticket or group he desires to vote. This marking should be made perpendicular lines over the whole list of names in the tickets or groups on the ballot which he does not desire to vote. Cross marks, square marks, star marks or any kind of check marks opposite individual names on a ticket or group will not do. The whole of the tickets or groups not desired to be voted must be plainly marked out.

Voting can be done only in one column. After selecting the group he wishes to vote the voter must erase or strike out the name of any candidate he does not wish to vote for and write in the space provided the name of his choice.

HIGH SCHOOL NOTES.

The high school opened again Monday, after being closed for almost two weeks on account of the scarlet fever scare. The attendance for the first day was rather small, but most of the pupils are again back, although a few are yet missing.

Superintendent Westbrook and Professor Polson each gave a short talk at assembly Tuesday afternoon concerning the track meet which will be held at the Normal track April 25. They stated that the boys now have a better opportunity than they have previously had, providing they enter the work in the right spirit and make a worthy struggle. After school on the same day a number of the boys met to try out their athletic accomplishments, and it is thought that there will be about twenty-five to enter the various contests. If the boys make a good showing they will in all probability also enter the track meet at Tarkio May 8.

Katherine Carpenter was a visitor at the high school Wednesday afternoon.

L. L. Lichliter, a representative of the Ginn publishing company, was at the high school Wednesday.

Went to Meet Husband.

Mrs. S. G. Selecman went to St. Joseph Wednesday evening to visit her sister, Mrs. G. W. Bowmer, until Friday, when she will go to Kansas City to meet Mr. Selecman, who is on his way home from Hot Springs, Ark., where he has been spending some time for the benefit of his health.

Visiting at Arkoe.

Mr. and Mrs. B. F. Hildreth and their guest, Mrs. B. A. Hildreth of Herrington, Kan., and Mrs. J. R. Miller and children, went to Arkoe Thursday morning for a few days' visit with Mrs. Paul Saxson, a daughter of Mr. and Mrs. Hildreth.

Down With Pneumonia.

Mrs. Gaylord Reynolds, who lives seven miles east of Clearmont, is very sick with pneumonia. Her little boy is sick and it is feared he has the pneumonia.

Miss Jane Barrows went to Kansas City Wednesday evening for a few days' visit.

SELECTS TWO DELEGATES

To Represent M. W. A. at State Meet at Sedalia—Endorses Candidacy of J. R. Davis.

The county convention of the M. W. A. camps of Nodaway county was held at the M. W. A. hall in this city Wednesday afternoon. Two delegates were selected to represent this county at the meeting of the state M. W. A. camp in Sedalia in May. They are C. F. Fleming of Hopkins and W. G. Sayler of Burlington Junction. The alternates are A. D. Barnet of Guilford and R. A. Walker of Skidmore.

The convention was well attended. A resolution was passed endorsing the candidacy of J. R. Davis of Nevada, Mo., as a director of the M. W. A. The state camp will select delegates to the national camp, which meets at Toledo, O.

S. O. Hutchison presided at the convention and W. G. Sayler acted as secretary.

SUCCEEDS R. L. M'DOUGAL.

G. B. Roseberry is Now the Secretary of the Maryville Homestead and Loan Association.

G. B. Roseberry has been selected as secretary of the Maryville Homestead and Loan association to succeed R. L. McDougal, who has been secretary since its organization in 1886.

The meeting of the directors of the association was held Wednesday at the office of R. L. McDougal. Three officers were re-elected for the ensuing year. John G. Grems was elected president, Nick Sturm vice president, and W. C. Pierce treasurer. G. B. Roseberry was elected secretary over R. L. McDougal. The Farmers Trust company was selected as the depository for funds.

The association was founded by Mr. McDougal in 1886 and was planned on the English system of farm loans. When the society was formed Mr. McDougal had to beat the bushes to sell the stock. The law required that there be at least 300 stockholders, and he finally succeeded in raising that mark by eleven.

ISSUES PRECAUTIONARY ORDER.

Philadelphia Health Department Says Don't Kiss If You Have Grip.

"Grip patients should not kiss anyone."

This esculatory bacteriological injunction is continued in the weekly bulletin yesterday issued by the department of public health and charities. The bulletin warns against the increasing mortality resulting from influenza or "grip," and it is pointed out that kissing is a thing to be considered in that connection.

In part, the bulletin says:

The mortality from influenza or grip so far this year has been higher than normal, which means that the type of the disease which is attacking so many of our people at this season is severe. Many deaths which have been charged to pneumonia, heart disease and kidney disease no doubt had their origin in a preceding attack of grip, the germs of which produce toxins or poisons which often do serious damage to the vital organs of the body. Persons who recover from grip are often many months in regaining their former health and strength. Grip, although not quarantinable by the bureau of health, is a highly contagious disease.

The following rules should be carried out in every case of influenza:

The patient should be isolated and all contact between the sick and well members of the family avoided.

All discharges from the nose and throat should be caught preferably on old cloths, which can be destroyed by burning.

Dishes and clothes used by the patient should be kept away from those used by members of the family until disinfected.

Food which has been in the patient's room should not be eaten by anyone else.

The aged, infirm or persons suffering from lung, heart or kidney troubles should be especially protected from the possibility of catching grip.

Concluding, the bulletin says that the patient's room should be fumigated after his recovery and before being occupied by anyone else.

Notice.

A mass meeting will be held at the court house Friday, April 3, at 7:30 p. m., for the selection of two nominees for directors of the school board.

Was Patient in Hospital.

Mr. and Mrs. J. N. Brown of McFall returned home Thursday. Mrs. Brown had been a patient in St. Francis hospital for two weeks.

Mrs. S. E. Wright went to St. Joseph Wednesday evening for a visit with a son and daughter.

TO HOLD THE BODY

TELEGRAM FROM G. K. CECIL ASKS AUTHORITIES TO WAIT.

IDENTIFY HEIMBURG?

Two Telegrams Received From Supposed Relatives of "Dutch Charlie" Today.

John Price received a telegram at 2:30 this afternoon from G. K. Cecil and the body of Heimburg was ordered held for a few days. The body will be held until further notice is received from Denver.

It is now probable that the body of "Dutch Charlie" Heimburg will be buried in Maryville. A telegram was sent to Mrs. G. K. Cecil at Denver, Col., Thursday morning and she refused to accept it. The authorities will bury the body in the next few days unless they get orders to the contrary from Mrs. Cecil. Over one hundred dollars was found on him and this money will be used to defray the funeral expenses.

He will be buried in Miriam cemetery. It is thought that Mrs. Cecil doubted the identity of the man or could not afford to take the body to Sedalia for burial.

Sheriff Ed Wallace received a telegram from Mrs. G. K. Cecil, 2114 Grove street, Denver, Col., asking about "Dutch Charlie" Heimburg, who was killed here last Friday. It was in answer to a telegram sent to the Denver police by Sheriff Wallace. The telegram follows:

"Just heard about body at morgue. Send full description of man and cause of trouble. Is there enough to send him to Sedalia, Mo., for burial? How much money did he have? What was there to identify him by?"

John Price of the Price & McNeal furniture store sent a telegram to Mrs. Cecil this morning and said that Heimburg was killed here Friday night and was identified by W. G. Gross of this place.

Mrs. Cecil will have to come to Maryville and identify the body before she can get possession of it. If she fails to claim the body it will be buried here by Price & McNeal.

ROBBED A SALOON.

Casey Taken to St. Joseph Wednesday to Be Tried.

Thomas Casey was taken to St. Joseph from Rockport, Mo., Wednesday on a charge of robbing a saloon. Casey was a pal of "Dutch Charlie" Heimburg and is charged with robbing a hardware store at Rockport.

Calls For Help.

Rev. R. L. Finch has had two calls from persons wishing some one to work at their home. The calls were phoned to him Wednesday and Thursday while he was at his study. The Christian church employment bureau is ready to do what it can to assist any in getting employment who desire it and in getting workers for those who wish them.

Notice is hereby given to the qualified voters of the city of Maryville, Missouri, that the regular election of said city will be held at the voting places in the various wards of the city of Maryville,

TUESDAY, APRIL 7, 1914,

For the purpose of electing a mayor, city collector, marshal and one alderman in each ward. The polling places will be: First ward, city hall; second ward, Robey's garage; third ward, Gray's feed yard; fourth ward, basement Empire theater.

A. S. ROBEY, Mayor.

SCHOOL ELECTION NOTICE.

Notice is hereby given to the qualified voters of the Independent School District of Maryville, Missouri, that at the regular annual election of said district to be held at the voting places in the various wards in the City of Maryville, for the election of city officers of said City of Maryville, on Tuesday, April 7th, 1914, there will be submitted to the qualified voters, who are taxpayers of said school district voting at such election, a proposition to levy a tax of six mills on the dollar on the taxable property of said district in addition to the four mills authorized by law to be levied by the board of directors of said school district for the next ensuing school year. Also the election of two directors for the term of three years each.

There will further be submitted to the qualified voters a proposition to authorize the Board of Directors of said school district to purchase from the Incidental fund and furnish free all the text books for all the pupils in the public schools of said district.

Done by order of the Board of Directors, this 20th day of March, A. D. 1914.

J. R. BRINK,
President of the Board.
GEORGE P. WRIGHT,
Secretary.

To the voters of Maryville:

I, Frank Partridge, will be a candidate for policeman at the election to be held April 7. As I have been urged by my many friends to come out independent, I feel it my duty to run, and as I have had at least 200 good citizens say to me that they would summer their vote over if I did not run, I feel it an injustice for the men who head those tickets to lose those votes because there is no one to vote for. I will do this to show the public I am right and I am favoring no head.

Mr. and Mrs. Pearl Allen and daughter of Hopkins were in Maryville Thursday.

Attacked Him.

The question just now in Hopkins is not "who struck Billy Patterson?" but who slipped up in the dark Saturday night and hit Samuel T. Traster. The attack was made in the shade of the big trees near Mrs. S. K. Wray's home, and the assailant made good his getaway. Sam was acting the part of an officer of the law when he was hit.—Hopkins Journal.

This happened in Parnell: A woman was kicked on the chin by a mule, causing her to bite off the end of her tongue, and her husband several times since refused the offer of $1,000 for the mule.—Hopkins Journal.

Kicked by a Horse.

Don Albright was found in an unconscious condition at about 9 o'clock Tuesday night near the barn, and later developments proved that he had been kicked by a horse that he was trying to drive into the enclosure for the night.

Dr. Large was called and soon brought the young man to his right mind and found that no bones were broken, the young man being simply stunned. The horse kicked him in the face.—Hopkins Journal.

HOME GARDENING

UNCLE SAM IS INTERESTED AND ONE OF HIS MEN TALKS.

GARDEN VACANT LOTS

Raising Garden Truck and Making the City More Beautiful is Suggested by Official.

It will interest hundreds of Maryville people, who are taking up the subject of home gardening and kindred topics, to learn that Uncle Sam is interested in this kind of work and deems it of great value. One of his big officials has pronounced views on the subject and has worked them out in detail:

Home gardening directed by the school is offered by Dr. P. P. Claxton, United States commissioner of education, as a solution for some of the educational and economic problems in city and suburban life. Dr. Claxton would have every vacant town lot transformed into a garden, where boys and girls would raise vegetables, berries and fruit for pleasure and for profit. He would have one teacher in the community employed twelve months in the year to teach elementary science in school and direct the home-garden work after school, on Saturdays and during the summer vacation.

"Of the 13,000,000 children between the ages of 6 and 20 years in the cities, towns, manufacturing villages and suburban communities of the United States," says Dr. Claxton, "not more than 15 per cent are away from home during the summer vacation or engaged in regular employment. The remaining 85 per cent remain at home without any useful, healthful, productive occupation requiring any large part of their time. On the other hand, there is much valuable land in back yards and vacant lots that is serving no useful purpose. The problem is to bring this land and these children together.

"In every school and community there should be at least one teacher who knows gardening, both theoretically and practically. This teacher should teach the elementary sciences in the schools during the school hours, and should, out of school hours direct the home gardening of the children between the ages of 7 or 8 and 14 or 15. If possible the teacher should have the assistance of an expert gardener, so that the work may be done in the most practical and profitable way.

The teacher and the gardener should help the children find the plot of ground in back yards, front yards and vacant lots near their homes best suited for gardening work, aid them by some co-operative method to have the lots plowed and prepared for cultivation, help them select seeds, show them how to plant, cultivate and harvest, so as to obtain the best results.

"Vegetables, berries and fruits grown should be used first as food for the children and their families, then the surplus should be marketed to the best advantage. Through the help of the teacher this can be done in a co-operative way. Ten or fifteen cents worth of vegetables each day from the gardens of each of 200 children would amount to $20 or $30. In the summer and fall, when the surplus is large and cannot be marketed to advantage, the teacher should direct and help the children in canning and preserving for winter use or for sale. The canning and tomato clubs of the southern states have already shown what can be done in this way.

"It is difficult to estimate the results of this plan when it shall be in full operation throughout the country. For the children it will mean health, strength, joy in work, habits of industry, an understanding of the value of money as measured in terms of labor, and such knowledge of the phenomena and forces of nature as must be had for an understanding of most of their school lessons. They will also learn something at least of the fundamental principles of morality; that each individual must make his or her own living; must, by some kind of labor of head, hand or heart contribute to the common wealth as much as he takes from it; must pay for what he gets in some kind of coin.

"This plan in full operation would probably do more toward keeping young children out of the factories and mills than all of the child labor laws on the statute books. A boy 10 or 12 years of age, with a quarter of an acre of land, working under careful direction, can produce more for the support of the family than can be purchased with the child's wages from the mill. Children should not be ground in the mills nor sweated in the factories; their strength should not be sapped nor their nerves racked by working in the heat and dust of indoors, yet all children should learn to work; it is good for them, and they joy in it. To work with its feet in the soil, its head in the sunshine and its lungs filled with good fresh air, is not a bad thing for any healthy child.

"This plan would also do much to solve the problem of the idle negro. A large part of the negroes of the southern states live on the outskirts of cities and small towns. Their cabin homes are frequenly on large lots and surrounded with vacant lots covered with weeds and rubbish. During the vacation months the negro children roam idly on the streets, falling into mischief and vice. Under proper direction they might make on these back yards and vacant lots enough to support themselves and more, at the same time, they would be kept from vice, and would gain habits of industry. Incidentally, negro quarters would be changed from places of ugliness to places of beauty.

"Probably one of the most valuable results of this plan would be to make it easy for most children to attend school three or four years longer than they now do, a thing more and more desirable, since education for life and citizenship in our industrial, civic and social democracy cannot be obtained before the age of adolescence. If a child can contribute to its support while in school, it may remain in school much longer than if it must be carried as a dead weight until it quits school to go to work.

"Compared with the results, the cost will be inconsiderable. No addition to the number of teachers will be required. It will only be necessary to require different preparation for one teacher in each school."

In the estimate submitted to congress by Dr. Claxton for the support of the bureau of education in the next fiscal year, an item of $5,700 is included to enable the bureau to begin the introduction of this kind of work in the schools of the United States. The commissioner believes that it will only be necessary to work out details of plans and to present them to school officers, together with full information in regard to results of somewhat similar work already done at various places.

Names of Signers of Original Petitions for the People's Ticket.

In order that the people of the city may know who are primarily responsible for the People's ticket which is now in the field, the original petition, with the names of the first few signers, is here given. There are now over 400 other citizens who have since joined with the original signers.

The petition is reproduced as follows:

We the undersigned citizens of the city of Maryville, believing it to be for the best interest of the city and community to have a progressive and business administration of the city's affairs by men of known and tried business ability and clean character, do respectfully petition that the persons hereinafter named do become candidates for the offices for which they are respectively designated herein, at the city election to be held in Maryville, Missouri, on April 7th, 1914, under the designation of the People's ticket.

ELECTS DEMOTTE

AS FIRST LIEUTENANT OF COMPANY F.

THE CAPTAIN RESIGNED

And Election Will Be Held Soon to Fill Vacancy—To Take in the State Encampment.

At the called election of Company F, Fourth regiment, N. G. M., Wednesday evening at the armory, Loren DeMotte was unanimously elected first lieutenant of the company. Lieutenant DeMotte will take charge of the company and the government property at once. Captain Ezra Phipps has resigned, and his resignation will be acted on soon. It is expected that an election for the captaincy will be held in three weeks.

The company will start preparations for the state encampment at Nevada, Mo., which will be held in August. The boys expect to take in the joint maneuver encampment of the National Guards of the Missouri valley states at Fort Riley, Kan.

Company F will take about fifty men with them to these encampments. They have over sixty members at the present time and some recruits.

The company will take a practice hike Saturday night and will return Sunday morning.

ABOUT OUR GUS.

St. Joseph Paper Says Nice Things About Mr. Romasser.

The St. Joseph Gazette has the following to say of Gus Romasser, the non-partisan candidate for mayor:

Now that he has announced for the job, we don't see how our good and also great friend, August Romasser of merry Maryville, can escape getting elected to the mayoralty of his home town at the coming little seance which the voters of the city will hold. For Gus—which is what they used to call him before he got married—looks like Judge Ben P. Lindsey and runs like a schoolboy going to see the circus unload, besides having an official reputation behind him which would make the fortune of a politician possessed of another kind. Yes, Gus has been in office before. He has been mayor before. Time was when he did $5,000 worth of work a year just to be able to make himself believe that the city salary of $300 annually and find yourself wasn't too much to draw. And even then Gus wasn't entirely satisfied that he was living up to his opportunities, which is a mighty awkward sort of feeling for a conscientious but good looking German to develop. So he sat up all night to make the Ringlings pay $500 for driving the trained hippopotamus over the West Third street paving, and put the money down so deep in the city coffers that the showmen never could find it again; and he coaxed the Dogtown residents, in that easy, graceful manner of his'n, to pave the state road when they had declared by the sacred mud of the last 102 freshet that they'd be eternally guttersniped if they paid any attention to the ordinances of that cussed city council; and he dwelt so eloquently on the need of affording employment to the girls of Maryville—being at that time a bachelor himself and therefore interested in keeping all the feminine residents from going elsewhere to win fame and fortune—that the town got a shirt factory where garments are turned out while you wait by the nimble fingered seamstresses that Gus got for the jobs; and he persuaded the merchants not to kick on the occupation tax, and acted as judge at a baby show, and advised the board of education to increase the school facilities, and made himself generally useful. Yes, Gus has got a record that is a record, and if he needs to use any money in the election, as we have already hinted, it will be just to hire extra counting machines to keep tab on his vote.

To the voters of Maryville:

I wish to place before the public the facts why Frank Partridge was not a candidate at the mass meeting Tuesday evening. I was selected to place him in nomination, but being hard of hearing I did not understand the chairman nor know until the nomination was closed. I wish to make this announcement to clear him of all stain.

Yours truly,
B. F. LOWREY.

Will Filed in Probate.

The will of the late Frank A. Chaney, a Hopkins merchant, who died March 25, was filed with Probate Judge Conn Wednesday. His widow, Ollie V. Chaney, was appointed administratrix of the estate.

A BLANKET BALLOT

WILL BE USED FOR FIRST TIME IN SEVENTEEN YEARS.

FOR COUNTY ELECTION

Instructions On How to Vote According to the New Plan Adopted.

The voters will use the blanket ballot at the county election this fall for the first time in seventeen years. In 1897 the legislature abolished it, and by an act passed in 1913 it was restored.

For seventeen years the voters have been using the single party ballot. Under the present law the ballot handed the voter contains the name of every candidate whose nomination for any office specified in the ballot has been certified to or filed according to the provisions of the law.

The names of the candidates of each party are grouped together under the proper heading, designating the organization by which the candidates comprising the groups are placed in nomination.

The statute provides:

"And each group shall so alternate on the ballot used in the several election districts or precincts that each group will appear thereon an equal number of times in the first column and the last column and in each intermediate column. The name of no candidate shall appear in more than one group.

The voter, according to instructions issued by the election commissioners, should mark out the names included in every ticket or group on the ballot, except the ticket or group he desires to vote. This marking should be made perpendicular lines over the whole list of names in the tickets or groups on the ballot which he does not desire to vote. Cross marks, square marks, star marks or any kind of check marks opposite individual names on a ticket or group will not do. The whole of the tickets or groups not desired to be voted must be plainly marked out.

Voting can be done only in one column. After selecting the group he wishes to vote the voter must erase or strike out the name of any candidate he does not wish to vote for and write in the space provided the name of his choice.

HIGH SCHOOL NOTES.

The high school opened again Monday, after being closed for almost two weeks on account of the scarlet fever scare. The attendance for the first day was rather small, but most of the pupils are again back, although a few are yet missing.

Superintendent Westbrook and Professor Polson each gave a short talk at assembly Tuesday afternoon concerning the track meet which will be held at the Normal track April 25. They stated that the boys now have a better opportunity than they have previously had, providing they enter the work in the right spirit and make a worthy struggle. After school on the same day a number of the boys met to try out their athletic accomplishments, and it is thought that there will be about twenty-five to enter the various contests. If the boys make a good showing they will in all probability also enter the track meet at Tarkio May 8.

Katherine Carpenter was a visitor at the high school Wednesday afternoon.

L. L. Lichliter, a representative of the Ginn publishing company, was at the high school Wednesday.

Went to Meet Husband.

Mrs. S. G. Selecman went to St. Joseph Wednesday evening to visit her sister, Mrs. G. W. Bowmer, until Friday, when she will go to Kansas City to meet Mr. Selecman, who is on his way home from Hot Springs, Ark., where he has been spending some time for the benefit of his health.

Visiting at Arkoe.

Mr. and Mrs. B. F. Hildreth and their guest, Mrs. B. A. Hildreth of Herrington, Kan., and Mrs. J. R. Miller and children, went to Arkoe Thursday morning for a few days' visit with Mrs. Paul Saxson, a daughter of Mr. and Mrs. Hildreth.

Down With Pneumonia.

Mrs. Gaylord Reynolds, who lives seven miles east of Clearmont, is very sick with pneumonia. Her little boy is sick and it is feared he has the pneumonia.

Miss Jane Barrows went to Kansas City Wednesday evening for a few days' visit.

SELECTS TWO DELEGATES

To Represent M. W. A. at State Meet at Sedalia—Endorses Candidacy of J. R. Davis.

The county convention of the M. W. A. camps of Nodaway county was held at the M. W. A. hall in this city Wednesday afternoon. Two delegates were selected to represent this county at the meeting of the state M. W. A. camp in Sedalia in May. They are C. F. Fleming of Hopkins and W. G. Sayler of Burlington Junction. The alternates are A. D. Barnet of Guilford and R. A. Walker of Skidmore.

The convention was well attended. A resolution was passed endorsing the candidacy of J. R. Davis of Nevada, Mo., as a director of the M. W. A. The state camp will select delegates to the national camp, which meets at Toledo, O.

S. O. Hutchison presided at the convention and W. G. Sayler acted as secretary.

SUCCEEDS R. L. M'DOUGAL.

G. B. Roseberry is Now the Secretary of the Maryville Homestead and Loan Association.

G. B. Roseberry has been selected as secretary of the Maryville Homestead and Loan association to succeed R. L. McDougal, who has been secretary since its organization in 1886.

The meeting of the directors of the association was held Wednesday at the office of R. L. McDougal. Three officers were re-elected for the ensuing year. John G. Grems was elected president, Nick Sturm vice president, and W. C. Pierce treasurer. G. B. Roseberry was elected secretary over R. L. McDougal. The Farmers Trust company was selected as the depository for funds.

The association was founded by Mr. McDougal in 1886 and was planned on the English system of farm loans. When the society was formed Mr. McDougal had to beat the bushes to sell the stock. The law required that there be at least 300 stockholders, and he finally succeeded in raising that mark by eleven.

ISSUES PRECAUTIONARY ORDER.

Philadelphia Health Department Says Don't Kiss If You Have Grip.

"Grip patients should not kiss anyone."

This esculatory bacteriological injunction is continued in the weekly bulletin yesterday issued by the department of public health and charities. The bulletin warns against the increasing mortality resulting from influenza or "grip," and it is pointed out that kissing is a thing to be considered in that connection.

In part, the bulletin says:

The mortality from influenza or grip so far this year has been higher than normal, which means that the type of the disease which is attacking so many of our people at this season is severe. Many deaths which have been charged to pneumonia, heart disease and kidney disease no doubt had their origin in a preceding attack of grip, the germs of which produce toxins or poisons which often do serious damage to the vital organs of the body. Persons who recover from grip are often many months in regaining their former health and strength. Grip, although not quarantinable by the bureau of health, is a highly contagious disease.

The following rules should be carried out in every case of influenza:

The patient should be isolated and all contact between the sick and well members of the family avoided.

All discharges from the nose and throat should be caught preferably on old cloths, which can be destroyed by burning.

Dishes and clothes used by the patient should be kept away from those used by members of the family until disinfected.

Food which has been in the patient's room should not be eaten by anyone else.

The aged, infirm or persons suffering from lung, heart or kidney troubles should be especially protected from the possibility of catching grip.

Concluding, the bulletin says that the patient's room should be fumigated after his recovery and before being occupied by anyone else.

Notice.

A mass meeting will be held at the court house Friday, April 3, at 7:30 p. m., for the selection of two nominees for directors of the school board.

Was Patient in Hospital.

Mr. and Mrs. J. N. Brown of McFall returned home Thursday. Mrs. Brown had been a patient in St. Francis hospital for two weeks.

Mrs. S. E. Wright went to St. Joseph Wednesday evening for a visit with a son and daughter.

TO HOLD THE BODY

TELEGRAM FROM G. K. CECIL ASKS AUTHORITIES TO WAIT.

IDENTIFY HEIMBURG ?

Two Telegrams Received From Supposed Relatives of "Dutch Charlie" Today.

John Price received a telegram at 2:30 this afternoon from G. K. Cecil and the body of Heimburg was ordered held for a few days. The body will be held until further notice is received from Denver.

It is now probable that the body of "Dutch Charlie" Heimburg will be buried in Maryville. A telegram was sent to Mrs. G. K. Cecil at Denver, Col., Thursday morning and she refused to accept it. The authorities will bury the body in the next few days unless they get orders to the contrary from Mrs. Cecil. Over one hundred dollars was found on him and this money will be used to defray the funeral expenses.

He will be buried in Miriam cemetery. It is thought that Mrs. Cecil doubted the identity of the man or could not afford to take the body to Sedalia for burial.

Sheriff Ed Wallace received a telegram from Mrs. G. K. Cecil, 2114 Grove street, Denver, Col., asking about "Dutch Charlie" Heimburg, who was killed here last Friday. It was in answer to a telegram sent to the Denver police by Sheriff Wallace. The telegram follows:

"Just heard about body at morgue. Send full description of man and cause of trouble. Is there enough to send him to Sedalia, Mo., for burial? How much money did he have? What was there to identify him by?"

John Price of the Price & McNeal furniture store sent a telegram to Mrs. Cecil this morning and said that Heimburg was killed here Friday night and was identified by W. G. Gross of this place.

Mrs. Cecil will have to come to Maryville and identify the body before she can get possession of it. If she fails to claim the body it will be buried here by Price & McNeal.

ROBBED A SALOON.

Casey Taken to St. Joseph Wednesday to Be Tried.

Thomas Casey was taken to St. Joseph from Rockport, Mo., Wednesday on a charge of robbing a saloon. Casey was a pal of "Dutch Charlie" Heimburg and is charged with robbing a hardware store at Rockport.

Calls For Help.

Rev. R. L. Finch has had two calls from persons wishing some one to work at their home. The calls were phoned to him Wednesday and Thursday while he was at his study. The Christian church employment bureau is ready to do what it can to assist any in getting employment who desire it and in getting workers for those who wish them.

City Election Notice.

Notice is hereby given to the qualified voters of the city of Maryville, Missouri, that the regular election of said city will be held at the voting places in the various wards of the city of Maryville,

TUESDAY, APRIL 7, 1914,

For the purpose of electing a mayor, city collector, marshal and one alderman in each ward. The polling places will be: First ward, city hall; second ward, Robey's garage; third ward, Gray's feed yard; fourth ward, basement Empire theater.

A. S. ROBEY, Mayor.

SCHOOL ELECTION NOTICE.

Notice is hereby given to the qualfied voters of the Independent School District of Maryville, Missouri, that at the regular annual election of said district to be held at the voting places in the various wards in the City of Maryville, for the election of city officers of said City of Maryville, on Tuesday, April 7th, 1914, there will be submitted to the qualified voters, who are taxpayers of said school district voting at such election, a proposition to levy a tax of six mills on the dollar on the taxable property of said district in addition to the four mills authorized by law to be levied by the board of directors of said school district for the next ensuing school year. Also the election of two directors for the term of three years each.

There will further be submitted to the qualified voters a proposition to authorize the Board of Directors of said school district to purchase from the Incidental fund and furnish free all the text books for all the pupils in the public schools of said district.

Done by order of the Board of Directors, this 20th day of March, A. D. 1914.

J. R. BRINK,
President of the Board.
GEORGE P. WRIGHT,
Secretary.

To the voters of Maryville:

I, Frank Partridge, will be a candidate for policeman at the election to be held April 7. As I have been urged by my many friends to come out independent, I feel it my duty to run, and as I have had at least 200 good citizens say to me that they would summer their vote over if I did not run, I feel it an injustice for the men who head those tickets to lose those votes because there is no one to vote for. I will do this to show the public I am right and I am favoring no head.

Mr. and Mrs. Pearl Allen and daughter of Hopkins were in Maryville Thursday.

Attacked Him.

The question just now in Hopkins is not "who struck Billy Patterson?" but who slipped up in the dark Saturday night and hit Samuel T. Traster. The attack was made in the shade of the big trees near Mrs. S. K. Wray's home, and the assailant made good his getaway. Sam was acting the part of an officer of the law when he was hit.—Hopkins Journal.

This happened in Parnell: A woman was kicked on the chin by a mule, causing her to bite off the end of her tongue, and her husband several times since refused the offer of $1,000 for the mule.—Hopkins Journal.

Mrs. W. H. Gebbeken and son of Burlington Junction are visitors for the day at the home of Mr. and Mrs. Will Linneman.

IF YOU SUFFER ANY STOMACH AGONY

Take Mi-o-na Now—Perfectly Harmless, But Acts Quickly and Effectively.

When you feel nervous, blue, irritable, tired and dizzy—when you have headaches, sour stomach, heartburn and pains in the colon and bowels—you are suffering from indigestion—you need Mi-o-na at once.

Mi-o-na is not a cure-all but a specific for stomach ills. It builds up and strengthens the stomach walls and glands, improves quickly the digestive system and assists nature to properly digest and assimilate the food thus insuring good health.

Do not suffer another day. Get a fifty-cent box of Mi-o-na Tablets from the Orear-Henry Drug Co. Keep them with you constantly—they will help you get well and strong and immediate relief is sure. If not benefited Mi-o-na costs nothing.

Kicked by a Horse.

Don Albright was found in an unconscious condition at about 9 o'clock Tuesday night near the barn, and later developments proved that he had been kicked by a horse that he was trying to drive into the enclosure for the night.

Dr. Large was called and soon brought the young man to his right mind and found that no bones were broken, the young man being simply stunned. The horse kicked him in the face.—Hopkins Journal.

Mrs. W. R. McKee and daughter of Pickering were in Maryville Thursday morning. They were accompanied home by Mrs. McKee's granddaughter, Mildred Lucile Strong, for a visit.

Legume Bacteria

Safe, convenient and effective. Active germs from my fields of thoroughly noduled legumes in the medium of their own habitat—the soil. One can, with instructions, will inoculate one bushel of seed. Alfalfa, Sweet Clover, Hairy Vetch and Soy Beans. Price, one can, $1.00; four cans, $3.00.

Inoculated legumes obtain their nitrogen from the air, otherwise from the soil. Inoculation produces vigor and growth. Book orders now.
